

A Proclamation Honoring
XXXX(title, fname, mi, lname, ext.)XXX
On the occasion of
National Senior Citizens Day, August 21, 2017

By Secure America Alliance, adopted from the draft provided to the President of the United States of America

Whereas, senior citizens like you have enriched our culture, cared for the next generation and provided by your lifetime achievements positive role models for all Americans, and

Whereas, your experiences & accomplishments are a teaching guide for all Americans, and

Whereas, there is a higher percentage of participation in civics including voting in primary and general elections by you and senior citizens than any other segment of our society, making you literally the bedrock of our society, and

Whereas, a War on Seniors has been waged with policies that unfairly tax your wealth, limit your healthcare choices, promote euthanasia, express disrespect, contempt for you, and with inflation caused by government overspending reduce the value of your savings and fixed income, and

Whereas, the War on Seniors has reduced the standard of living of you and many senior citizens and threatens to get worse unless these policies are reversed,

Therefore, this proclamation shall serve as notice that the War on Seniors is over and that government policies at all levels should be adopted that will improve the standard of living and recognize and honor the achievements of you and America's senior citizens,

Now therefore it is resolved that all Americans should show our respect to you and senior citizens by never again forcing you to bear an unfair share of the tax burden, and

It is further resolved and recommended that all Americans should be thankful and express gratitude to you and seniors for your productive lives and achievements, and

Be it further resolved that we encourage you and senior citizens to continue to participate as volunteers & donors with charities, churches, causes & in your community, and

We commend & thank you for your ongoing support of Secure America Alliance, and

Be it resolved, that we thank those who welcome & work with you and senior citizens in communities – churches, senior citizen centers, clubs & associations across our land,

NOW, THEREFORE, we do proclaim, as President Ronald Reagan has done & we anticipate President Donald J. Trump will also do, that August 21, 2017, is National Senior Citizens Day and this week, August 20 through August 26, is National Senior Citizens Week. We call upon Americans to pay tribute to Senior Citizens, and to observe with appropriate ceremonies and activities honoring their important contributions to society.

Certificate Issued by Secure America Alliance

Ronald Wilcox, Executive Director (and as provided to President Donald Trump this date)
